

This Goes With That

For Phoenix Cart by frankl

Features:

- Cross sell products on the product info page.

Installation:

- **BACKUP YOUR DATABASE AND FILES**
- Copy all files in the catalog directory to your Phoenix Cart server, retaining folder structure
- Go to **Modules** -> **Layout** -> **Install Module** and install the This Goes With That module.
- Go to **Admin** -> **Categories / Products** and select a product to edit.
- Click on the **This Goes With That** tab and search for another product to go with the product you are editing.
- If you want to change the title for the **This Goes With That** item (i.e. Pears -> Juicy Pears), click the **Override Product Title** switch and enter your new title.
- If a product with options is ticked on the product page, the options will be shown for customer to select.
- On the product page, ticked items are added to cart along with main item when **Add to Cart** is clicked.
- That's it, done!
