PWA Guest Checkout

Version 5.4. Phoenix

by @raiwa
raiwa@phoenixcartaddons.com
www.phoenixcartaddons.com

In memoriam and all credits to De Dokta

Thanks to: @Owl Sauron, @tsimi, @burt, @ecartz, @Mikepo, @rupruprup, @vmn, @zippurman, @Mort_Lemur for ideas, suggestions, code and testing

Support: https://phoenixcart.org/forum/app.php/addons/free_addon/purchase_without_account/support

Compatibility:

Phoenix Cart 1.1.0.0+.
Tested with Phoenix 1.1.0.7
PHP 7.0-8.5

Older Phoenix versions please use the appropriate version for your store version

Phoenix Cart 1.0.9.5-1.0.9.7 use PWA Guest Checkout 4.6.5
Phoenix Cart 1.0.8.20-1.0.9.4 use PWA Guest Checkout 4.6.4r1
Phoenix Cart 1.0.8.16-1.0.8.20 use PWA Guest Checkout 4.6.2r1
Phoenix Cart 1.0.8.8-1.0.8.15 use PWA Guest Checkout 4.5.4
Phoenix Cart 1.0.8.7 use PWA Guest Checkout 4.5.3
Phoenix Cart 1.0.8.4 use PWA Guest Checkout 4.5.2
Phoenix Cart 1.0.8.2 use PWA Guest Checkout 4.5.1
Phoenix Cart 1.0.7.14-1.0.8.0 use PWA Guest Checkout 4.4.0
Phoenix Cart 1.0.7.9-1.0.7.13 use PWA Guest Checkout 4.3.3
Phoenix Cart 1.0.7.5-1.0.7.7 use PWA Guest Checkout 4.3.2
Phoenix Cart 1.0.0.0-1.0.7.5 use PWA Guest Checkout 4.3.0

Add-Ons Support:

[Wholesale \(SPPC lite\)](#) and [Wholesale Pro](#)

- Payment class extension includes support for wholesale payment modules exclusion. No additional mods required.

[Points and Rewards BS](#)

- If "Offer set password to guest" is enabled, a earn point info message is shown in the list of regular account advantages at checkout success.

[Reviews and Testimonials Manager](#)

- Use the Reviews request modification in order status update mails from the Reviews and Testimonials Manager instead of PWA.

=====

New files:

```
ext/modules/content/reviews/write_guest.php
/includes/hooks/admin/siteWide/swPwa.php

/checkout_guest.php
```

Changed files:

none

NOTE: Make sure you are using the "override" template and have it selected in:
Admin : Configuration : My Store : Template Selection
Otherwise you must copy:

```
/templates/override/includes/ext/modules/content/reviews/write_guest.php
/templates/override/includes/hooks/shop/siteWide/pwa.php
/templates/override/includes/hooks/write/zz_redirect.php
/templates/override/includes/pages/checkout_guest.php
```

TO:

```
/templates/YOUR SELECTED TEMPLATE/includes/ext/modules/content/reviews/write_guest.php
/templates/YOUR SELECTED TEMPLATE/includes/hooks/shop/siteWide/pwa.php
/templates/YOUR SELECTED TEMPLATE/includes/hooks/write/zz_redirect.php
/templates/YOUR SELECTED TEMPLATE/includes/pages/checkout_guest.php
```

NOTE:

All language definitions for the public store side and not included in the 2 content modules, are included in:
/includes/languages/[your language]/hooks/shop/siteWide/pwa.php

All language definitions for the admin side are included in:
/includes/languages/[your language]/hooks/admin/siteWide/swPwa.php

=====

=

Installation

1. Copy/upload all new files from the upload directory into your store directory:

Instructions

NOTE: In a normal checkout process, guest accounts are automatically deleted on the checkout success page. However, a guest account may remain registered in the database if the customer does not return to the checkout success page, for example when returning from an external payment service or when the customer abandons the checkout after entering their guest data.

2. [Required] In **Admin => Modules => Content[login]** install and configure the module '**Login without Account Form**'.

3. [Required] In **Admin => Modules => Customer Data** install and configure the module '**Guest**'.

4. [Required] In **Admin => Modules => Customer Data** for all Modules you wish to show on the "checkout_guest" page, tick the page 'checkout_guest' in the 'Pages' list. Only the **E-Mail** module is required for PWA to work. However, you must also assign checkout_guest to the Customer Data modules required by your shipping and payment modules and by your checkout process..

5. [Optional] If you wish to use the "**Offer set password to guest**" option and offer to opt for a regular account:

In **Admin => Modules => Content[checkout_success]** install and configure the module '**PWA Keep Account**'.

6a. [Optional] If you want to use the review links in the order confirmation and/or status update emails, go to **Admin => Configuration => E-Mail Options => Use MIME HTML When Sending Emails** => Set to "**True**"

6b. [Optional] In **Admin => Orders** => Use "**Add links to product reviews**" to add review links to the order status email.

Works for guest orders and regular orders and will be shown in the comment area if added.

7. [Optional] settings for stores selling virtual-downloadable products:

In **Admin => Modules => Content[login]** '**Login without Account Form**'.

Allow guest checkout for virtual products =>

False: for any order containing virtual products, guest checkout will be disabled

True: for any order containing virtual products, guest checkout will be enabled

Exclude Payment Modules for Virtual Guest Orders

Allows to select payment modules like cod, check/money order, bank transfer etc. which are not instant to be disabled for any virtual product order for guests.

Needs the previous option "Allow guest checkout for virtual products" to be set to "True"

8.[Optional] To add review links to guest and regular order confirmation emails, go to **Admin → Modules → Content [login] → Login without Account Form**.

Add Review Links to Guest Order Mail

True

Add Review Links to Standard Order Mail
True

10. [Optional] To hide the "Your Password" group title on checkout_guest.php:

Go to **Admin** → **Localization** → **Customer Data Groups** and create a new Customer Data Group, for example **MATC** or **Legal Stuff**, or leave the group name empty.

Then go to **Admin** → **Modules** → **Customer Data**, edit the Customer Data module you want to place in this group, and assign it to the newly created group.

=====

Ready! You can now use PWA!

NOTE: The PWA login form is for customers visible only if their shopping cart is not empty and they are not logged into their regular account!

Changes Version. 5.4

- Added review links for non guests to order update mail
- Added security improvements.
- fixed errors in installation script
- secured uninstall script
- added missing override payment class for disable payment modules for guests with virtual orders
- revised instructions

See SECURITY_FIXES_5.4.txt for all details

thanks to @Mort_Lemur for the reports

Changes Version. 5.3

- Added check for valid reviews key to guest_order.php and write_guest.php.
- fixed error in zz_redirect.php query.
- changed reviews write linkg for registered customers to core write.php
- removed version references in hooks for easier maintenance

thanks to @Mort_Lemur for the reports

Changes Version. 5.2

- Added link to guest orders page to guest order update mail.

Changes Version. 5.1

- Added guest order page to allow guest customers access to detailed order information like regular customers see on account_history_info
- Added link to guest orders page to guest order confirmation mail.
- Access to guest order page is protected with guest order token.
- Tested with Phoenix 1.1.0.6

Changes Version. 5.0

- Updated for Phoenix 1.1.0.0+ and Bootstrap 5
- Tested with Phoenix 1.1.0.1 and PHP 8.3

Changes Version. 4.6.6

- Updated includes\modules\content\login\cm_pwa_login.php to match Phoenix 1.0.9.8+ core
- Added checkout_guest.php to selection for Checkout Redirect configuration setting on login module installation.
- Changed Checkout Redirect configuration setting to login.php on login module installation.
- Changed PWA login module color style to dark to be different from core create account module.
- Added top margin to checkout success module.
- Updated jquery scripts to plain javascript.

Changes Version. 4.6.5

- Updated templates\override\includes\ext\modules\content\reviews\write_guest.php to match Phoenix 1.0.9.5+ core
- Fixed error in products query in: ext\modules\content\reviews\write_guest.php
- Fixed wrong url in: templates\override\includes\hooks\shop\siteWide\pwa.php

Changes Version. 4.6.4.r1

- Fixed error in products query in: ext\modules\content\reviews\write_guest.php
- Fixed wrong url in: templates\override\includes\hooks\shop\siteWide\pwa.php

Changes Version. 4.6.4.

- updated template classes in modules for Phoenix 1.0.9.4+ compatibility
- Tested with Phoenix 1.0.9.4 and PHP 8.3

Changes Version. 4.6.3.

- updated templates/override/includes/pages/checkout_guest.php for Phoenix 1.0.8.21+ compatibility
- Tested with Phoenix 1.0.9.1 and PHP 8.2

Changes Version. 4.6.2.r1

- Fixed error in products query in: ext\modules\content\reviews\write_guest.php
- Fixed wrong url in: templates\override\includes\hooks\shop\siteWide\pwa.php

Changes Version. 4.6.2.

- Removed `cdg_horizontal_sort_order` checkout_guest.php query for Phoenix 1.0.8.21 compatibility
- Tested with Phoenix 1.0.8.21 and PHP 8.2

Changes Version. 4.6.1.

- Fixed typo in checkout_guest.php, customer_id check. Thanks to @Leon

Changes Version. 4.6.0.

- Updated for Phoenix 1.0.8.16+
- Updated to match changes in Phoenix Pro. Thanks to @ecartz
- changed filename create_account_pwa.php to checkout_guest.php
- removed MATC_pwa.php hook

Changes Version. 4.5.4

- Updated for Phoenix 1.0.8.8+
- Added legacy includes/modules/notifications/n_update_order.php from Phoenix 1.0.8.14 with fix for hook call. Thanks to @ecartz

Changes Version. 4.5.3

- Updated for Phoenix 1.0.8.7+. Thanks to @ecartz and @zippurman for help and suggestions
- Fixed wrong link and variable in shop sitewide hook. Thanks to @vmn

Changes Version. 4.5.2

- Updated for Phoenix 1.0.8.4+
- Added support for Reviews and Testimonials Manager.

Changes Version. 4.5.1

- Added delete guest sessions when guest accounts are deleted in Admin. Thanks to @Mikepo for reporting the problem

Changes Version. 4.5.0

- Updated for Phoenix 1.0.8.2
- Updated code to match actual core code
- Merged Admin categories and customers hook into siteWide hook.

Changes Version. 4.4.0

- Added disable script to footer account module. Thanks to @plamastus for the advise
- Added delete guest account routine to logoff page. Thanks to @plamastus for the advise
- Added optional redirect to Create Account PWA to the login page. Thanks to @mikabee for the suggestion
- Updated all Copyright references to Phoenix Cart

Changes Version. 4.3.6r1

- Removed blank line at the beginning of:
includes/modules/content/checkout_success/cm_cs_pwa_keep_account.php. Thanks to @plamastus for the advise

Changes Version. 4.3.6

- Updated customer data module for Phoenix 1.0.7.14+ compatibility.
- modernized code to match actual core standards
- moved pwa files from default to override template

Changes Version. 4.3.5

- Updated customer data module for Phoenix 1.0.7.12+ compatibility.

Changes Version. 4.3.4

- fixed sql error in create_account_pwa.php. Thanks to @vmn

Changes Version. 4.3.3

- updated for Phoenix 1.0.7.9+
- modernized coding to match actual core standards
- updated reviews_pwa page to match core reviews page including nickname support.

Changes Version. 4.3.2

- fixed error in admin reviews hook. Thanks to @discxpress
- updated version info in login module. Thanks to @discxpress

Changes Version. 4.3.1

- updated content modules hook check

Changes Version. 4.3.0

- updated for Phoenix 1.0.7.5
- updated createaccount_pwa.php to templateable page
- added MATC hook for create_account_pwa.php page
- moved store hook to templates
- updated admin/customers.php hook to customer details sql query and added support for search option

Changes Version. 4.2.0

- updated for Phoenix 1.0.6.0
- renamed account_pwa.php to create_account_pwa.php
- updated create_account.pwa.php to use customer data modules
- flexible optional use of customer data modules in create_account.pwa.php
- added delete guest accounts button and guest count in admin/customers.php
- removed unnecessary guest flag in address_book table
- all changes are hooked now, zero core modifications
- fixed some minor errors from previous versions

Changes Version. 4.1.0

- hooked all modifications on admin side
- one hook call needed to be added in admin/orders.php and checkout_process.php

Changes Version. 4.0.1

- updated core reference for Phoenix 1.0.4.0 in admin/reviews.php
- replaced deprecated <u></u> tags with alert-link class in shop language files. Thanks to @Demitry
- added sql to delete guest account data also from customers_info, customers_basket and customers_basket_attributes tables when the guestaccount is deleted. Thanks to @vmn
- disable navbar account menu and header account buttons during guest checkout. Thanks to @vmn
- updated scripts for checkout success to restyled Phoenix 1.0.2.6+ version..
